**CONGRESSMAN
UNCOVERS 'PLOT'
AGAINST COURT**

A "sinister plot" against the U. S. Supreme Court has been uncovered by Congressman Otis G. Pike of Riverhead—he thinks.

In a newsletter to his constituents, the Democratic legislator points out that the Supreme Court is not listed in the Washington, D. C., telephone book.

The phone book has seven pages of listings for federal offices, Pike points out. He called on the Federal Bureau of Investigation and the Central Intelligence Agency to investigate the "obviously well advanced plot" to keep the court out of the phone book.
